### REVOLUTIONISTS MORE FULLY IN POWER, GERMAN REPORTS SHOW

Workmen and Soldiers Continue to Take Over Management of Affairs, Indicated

LONDON, Nov. 14.—The new Prussian government has confiscated the entailed property of the Prussian crown, a Berlin wireless dispatch announced today.

LONDON, Nov. 14.—The revolutionists are coming more firmly into power in Germany, it is indicated by reports from various sources.

A Wolff Bureau dispatch by way of Copenhagen declares the German eastern high command has acknowledged the authority of the workmen and soldiers. Councils of soldiers have been organized at Landsberg, Warthe, Glogau and Sensburg.

A new Prussian cabinet has been formed by the workmen and soldiers, according to a Copenhagen report. Eugene Ernst is minister of finance; Otto Braun and Adolph Hoffmann are joint ministers of agriculture, and the other portfolios are held by Count Hirsch and Heinrich Stroebel.

The Independent Socialists will demand the trial of junkers, held to be responsible for declaration and continuation of the war, an Amsterdam dispatch stated. They will also seek to abolish the stock exchange, cancel war loans and divide the land.

German newspapers continue their bitter denunciation of the terms of the armistice.

"The armistice terms are modeled upon those which Rome exacted from Carthage," says the Deutsche Tages Zeitung. "The German people must ask that the government take measures to meet the catastrophe."

"There is no alternative but to accept them (the terms)," says the Vorwarts.

"The Entente diabolical plan to keep the blockade will result in famine and perpetuation of the revolution; it is monstrous," the Tagesschau declared.

"It is unprecedented in humanity," according to the Tageblatt.

A revolution that permits a crown prince to return to the head of his army after renouncing the right of succession is not a revolution to be trusted. A revolution that retains in office all the autocratic army commanders from von Hindenburg down, is not a revolution to carry conviction. A revolution that allows its former emperor to cross to a neutral boundary whence he can conveniently return after peace has been signed, is a revolution to be held under surveillance.

Hohenzollern's surrender should be demanded of Holland by America and the Allies under the law of extradition. After sentence of guilty of world murder has been imposed on him, he should be imprisoned for life. Execution would be too lenient. It would fit the conditions of the case if Great Britain would cede St. Helena to the League of Nations for a prison for the former kaiser. Thereafter St. Helena would serve as a perpetual place of incarceration for high offenders against the world's peace.

AMSTERDAM, Nov. 14.—The German garrison at Brussels which mutinied yesterday, is reported to still be in control of the city. The soldiers have hoisted the red flag.

Crown Prince Rupprecht of Bavaria is said to have taken refuge in the residence of Spanish Minister Villalobos. The latter has appealed to King Albert to hasten his troops to the city to restore order.

### KARL, NOW COUNT, IN SWITZERLAND

ROME, Nov. 14.—An Italian lieutenant returning from Austria, where he was a prisoner for two years, declared positively that Emperor Karl and his family had gone to Neuchatel, Switzerland, where Karl had assumed the title of count.

Neuchatel is situated on the lake of that name, 25 miles northwest of Berne. It has a population of about 25,000.

### NAVY CAN RELEASE 50,000 MEN, SCHOOL, AND COLLEGE PUPILS

WASHINGTON, Nov. 14.—The Navy Department estimated today that 50,000 men could be spared from the navy within the next month. As one means of releasing men, students of schools and colleges can apply for release to their commanding officers and the department policy will be to grant it.

### 40 CASUALTIES IN BRUSSELS BATTLE; BELGIANS, GERMANS

### LATE WIRE NEWS

WASHINGTON, Nov. 14.—The work-of-flight order has been automatically suspended, it was pointed out at the provost marshal general's office today as long as draft calls are held up.

SAN FRANCISCO, Nov. 14.—Nevada leads all western states in the United War Work campaign and may subscribe its quota before night. That state has raised 92 per cent of its allotment.

California has subscribed \$1,519,144 of her quota of \$4,688,750, today's figures showed.

WASHINGTON, Nov. 14.—Geo. Creel, chairman of the committee on public information, issued the following statement today regarding censorship regulations:

"It has been agreed that there is no further necessity for the operation of the volunteer censorship under which the press has guarded from the enemy the military policies, plans and troop movements of the United States. The agreement may be considered as no longer binding and the card carrying the request of the government is herewith cancelled."

"The secretary of war and the secretary of the navy and all others connected with the direction of America's war efforts, join in sincere acknowledgment of the debt of gratitude owing to the honorable discharge of a high responsibility. Without force of law and under no larger compulsion than their own patriotism, the overwhelming majority of newspapers have given unfaltering obedience to every desire of the government in all matters of military secrecy carrying through successfully a tremendous experiment in honor and trust."

LONDON, Nov. 14.—Hollanders in London have called Count von Bentinck and the Dutch premier, demanding surrender of Count William Hohenzollern for trial.

### KRUPP GUN HEAD FLEES TO HOLLAND

COPENHAGEN, Nov. 14.—Count Krupp von Bohlen, titular head of the great Krupp munitions works, fled to Holland with the former kaiser, according to reports received here today.

Previous reports said that both the count and his wife, Bertha Krupp, had been arrested by the revolutionists.

### SOON BEGIN MAKING FORD PASSENGER AUTOS AGAIN

DETROIT, Nov. 14.—Manufacture of pleasure cars is soon to be resumed by the Ford plant, according to E. G. Leibold, general secretary to Henry Ford. "We expect to resume the manufacture of pleasure cars as fast as we are released on war contracts now being fulfilled," said Leibold.

### TOTAL REPORTED FOR COUNTY TO DATE \$38,869

People Generally Thoroughly Understand Real Need For Welfare Work

Greenville	472.50	
Diamond	418.00	
Olinda	529.00	
Irvine	834.00	
	\$38,869.78	

Reports received up to noon today at headquarters for the United War Work campaign show that \$38,869.78 has been reported in on the county's quota of \$151,500. More than that has been secured, for many of the districts have not yet made reports. However, the four biggest communities in the county are included in the totals, and the necessity of a thorough canvass is more apparent now than it was when the campaign opened.

"We ought to have larger subscriptions than we are getting," declared S. H. Finley, county campaign chairman, today. "A good many people are inclined to think that the drive is going to be easy sailing for the committees, and the inclination of the individual is to reduce rather than to double the amount that he gave in the Y. M. C. A. drive last year. We can never reach our goal if that spirit prevails. We need good-sized subscriptions, and a good many of them. No man has any patriotic right to let himself off with a light subscription when he could just as easily as not give twice or three times as much as he has subscribed. Too many people who ought to give \$25 are giving only \$5. That is not true all along the line, of course, for there are scores of instances of real sacrifices that have been made in this drive. I am only speaking of that percentage that is not doing its full duty and whose action jeopardizes the success of the campaign in this county."

Here in Santa Ana most of the districts have reported partial returns. In nearly every district there is some clean-up calls to make, and in a number of the districts the canvassing is nowhere near completed.

There will be some who will be missed by the solicitors. They will want to do their share. Those can mail their checks to H. A. Gardner, Santa Ana chairman, or can leave the money for him at the Orange County Title Company office.

### VICTORY CLUBS HAVE FIFTY PER CENT OF QUOTA

The Poly high Victory boys and girls in the United War Works Campaign got fifty per cent of their quota in the first two days of work. ### Give to Welfare Work as Thank Offering for Peace

By Rev. A. T. O'Rear, Pastor of Spurgeon Memorial Church.

We have achieved the greatest victory in the history of our nation, or indeed in the history of any nation. To speak of the greatness of the struggle in which we have been, and are engaged, is to speak a trite thing. Nevertheless it is necessary that we remind ourselves of the fact that we as a nation have taken a new place among the nations of the earth. Henceforth we shall be the arbiter of the world's controversies. This is a tremendous responsibility. God grant that we shall always be worthy of it.

We have taught the world some wonderful lessons in these days. Europe has seen to do tremendous tasks. Tasks that are like fairy tales, and do them with the least apparent effort, and the most perfect synchronism of our working units. We have even surprised ourselves. We have discovered ourselves. We have found potentialities that we little dreamed we had. We have discovered heroes in the most unexpected places, and all Europe is talking about us. Whoever thought that we could raise an army of over three millions in less than a year? Who thought that we could send over seas such an army without the loss of a single transport when the sea was swarming with enemy submarines? Who knew that our army would accomplish what it has when it reached the front?

Besides all this we have discovered the invaluable character of certain organizations in the midst of war, which had been tolerated in times of peace. The Y. M. C. A. and the other organizations of the seven allied in the present "War Fund Drive" were looked upon as all right to serve as clubs, etc., in times of peace, but their usefulness in times of war was not dreamed of. We have seen them come to the front, and now men who had little use for them in times of peace are saying that it is impossible to know what would have become of them but for these things. Here, too, we have taught the world a lesson while we were learning one ourselves. It is that success depends upon morale. That of course is no new lesson, but the reduction of morale to a science is a new lesson.

Never before has an army had a definite, constructive plan of keeping up the spirit of the men. Never before has such pains been taken to keep the men of the army morally clean and physically fit. The necessity of this was seen by our leaders, and the possibility of carrying it out developed by these organizations. The Y. M. C. A. and the K. C. "hut" will be famous for all time to come. They have wrought nobly and no small part of the success of this war is due them.

But now that peace has come, what further need is there for them? Why should we give to them now? Aren't they about ready to discontinue? These questions are being asked workers in the present drive, and many people are feeling that it is not necessary to continue contributions.

We are far from the time of demobilization as yet. It will be necessary to keep a large force of men in Europe for a long time to come. More than that, if it were possible to start moving troops back from Europe today, it would require a year to get them all back. Then, so great is the demand for food and material for rehabilitation, that it would not be wise to use all the shipping required to return the men at once. Ships will be busy for a long time hauling these necessities.

Along with this is the fact that perhaps the most dangerous time morally for the soldier, is not when he is likely to go into battle at any moment, but it is when the probability of battle has been removed. He is quartered with thousands of others in a peaceful community. Here the temptation to indulgence is many times greater than it is when he is expecting to go into battle at any time. Hence it is doubly important to keep these organizations at the maximum of their efficiency to serve the men in these days of their great need, and greater peril.

We ought to give largely as a thank offering. Any man who will count pennies and grudge what he gives at a time like this scarcely deserves the name of patriot, and will hardly dare to look the returning men in the face. The call is greater now than it ever has been, and should be responded to with liberality and cheerfulness.

LOS ANGELES, Nov. 14.—The government does not propose to permit relaxation of the rules governing the sale of liquor or controlling vice in cities near army camps on account of the signing of the armistice, Secretary of War Baker telegraphed Mayor Woodman today. "Our states and cities ought never to lose the control which has been established or stop so vital a work," Baker wired. "The Government proposes to leave no measure unused in repression of these evils. From now until demobilization is fully accomplished, the War Department is determined to return soldiers to their families and to civil life uncontaminated by disease."

WASHINGTON, Nov. 14.—The Rainbow and New England divisions are believed likely to be back in the United States by Christmas. With the exception of the First regular division, they were the first troops to land in France. PARIS, Nov. 14. (1:40 p. m.)—The Americans have occupied Briey.

Briey is the center of the famous iron basin of that name. It is twenty-eight miles northeast of Verdun, twelve miles northwest of Metz and only three miles from the German frontier.

Chimay is in Belgium, fourteen miles northeast of Hirsion, and only six miles from the Allied lines as established on Nov. 11.

BY JOHN DE GANDT (United Press Staff Correspondent) PARIS, Nov. 14.—(10:30 a. m.)—The Allied armies on the west front following the evacuation of the Germans, are reported to have started forward this morning.

Strassburg, Metz, Colmar and various towns in Alsace-Lorraine are expected to be occupied Sunday.

The Americans are said to be marching toward Metz and Strassburg. Marshal Foch, in behalf of the Allies, will take possession of those two cities in the presence of President Poincare, Premier Clemenceau and other French ministers.

A large part of the great Briey iron district already has been evacuated.

As the evacuated towns and villages in Alsace-Lorraine are taken over, the German civil administrations are replaced by French officials. Re-occupation of the restored provinces will be carried out precisely the same as that of northern France, as it is considered that Alsace-Lorraine has been occupied by the enemy forty-eight years, instead of four years.

American troops are co-operating with the French in the work of repatriation. The Germans have officially complained of the hostile attitude of the inhabitants of Alsace-Lorraine as they withdraw.

Colmar is only ten miles from the Allied lines, as they were at the close of hostilities. Metz is twelve miles and Strassburg thirty miles from the lines.

### HEAVY TOURIST INFUX EXPECTED

SANTA BARBARA, Nov. 14.—All the resort proprietors of this section are anticipating a heavy tourist season. The end of the war has entirely changed business conditions over the nation, and inquiry for reservations is on the increase since peace came within view. New York, Philadelphia, Boston, Chicago and other centers of war activities are relaxing, and the captains of industry are turning from the concentration of the intense business drive to plan a trip to the coast, local hotel men declare.

M. M. Potter of the Hotel Potter, states that the last twenty-four hours has wrought a marked change with the outlook for the greatest influx of tourists in years. E. P. Dunn of the Arlington voices the same opinion, while other notable hotel managers in this section are like minded. A rush following the Thanksgiving season, with the crest of the tide coming in December and January, is looked for.

# WILSON IS WITH LLOYD-GEORGE FOR JUSTICE

British Premier, U. S. President For 'Justice Without Revenge or Greed'

BY ROBERT J. BENDER (United Press Staff Correspondent) WASHINGTON, Nov. 14.—President Wilson and Lloyd George stand squarely together on the main problem of peace—justice, without revenge or greed.

At the same time, the two nations are working out, separately, but in many respects with the same ideas at the fore, the problems of reconstruction.

As revealed by Premier Lloyd George's latest utterances and as known from President Wilson's speeches, the league of nations idea will be put forth vigorously in the peace conference. Lloyd George stands with the President on his four principles. Particular stress is being laid both by the British premier and the American president that the great peace must avoid "base, sordid, solid ideas of vengeance and avarice."

Both Lloyd George and the President are now busy themselves with reconstruction matters. Lloyd George has declared for big housing schemes, for creation of the minimum wage, for reduction of hours and for increased production from the land.

President Wilson has not yet declared himself on the program of the future. But he has under consideration the creation of a reconstruction commission, which should be a group of experts acting as a clearing house for the financial labor construction problems. These moves by Great Britain and the U. S. are part of the big fight now under way to curb Bolshevism in the world.

"Big business" is anxious for a pronouncement of policy. Labor wants to know what its future shall be.

Lloyd George says that Bolshevism is not feared if the problems are handled aright. This nation, too, is striving to avert the curse of Bolshevism and hence it proposes to have a sound reconstruction policy at the earliest possible time.

Against Peace of Vengeance LONDON, Nov. 14.—Premier Lloyd George in an address here November 11, declared in favor of a league of nations and against a peace of vengeance.

"One of the principal issues at the forthcoming general election will be the nature of the peace settlement," declared the Premier. "It will mean the settlement of the world. What are the principles on which that settlement is to be effected? Are we to lapse back into the old national rivalries and animosity and competitive armaments or are we to initiate the reign on earth of the prince of peace? What are conditions of peace? They must lead to settlement which will be fundamentally just. No settlement that contravenes principles of eternal justice will be a permanent one."

"We must not allow any sense of

## REMARKABLE PHOSPHATE MAKES THIN PEOPLE FAT

Something over sixty years ago, Pelouze, a French scientist, discovered a form of organic phosphate which when taken into the human system was quickly converted into nerve tissue.

Soon after its discovery Dr. Albert Robin (Academy of Medicine, Paris) began a scientific investigation of the use of this organic phosphate and its effect upon the human system, with results that amazed the scientific and medical world.

Today it is an admitted fact that in the treatment of those ailments directly or indirectly due to depleted nervous vitality, such as neurasthenia, nervous weakness, premature old age, insomnia, lack of energy, fatigue, nervous debility, thinness, etc., it is unequalled.

Physicians and hospitals everywhere now recognize its merits by its use in ever-increasing quantities, and it is therefore of interest to all such sufferers to learn that this organic nerve building

# INTERNATIONAL HIGH COURT FOR HUNS?

All Nations Should Join In Punishing Murderer of 20,000,000 People Held

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent) PARIS, Nov. 14.—Will Wilhelm lose his head, be banished, or allowed to disappear?

Public opinion here is divided. High officials apparently are almost unanimously Wilsonian in their attitude. The majority of the masses seemingly rebel at the escape of the former kaiser, who was regarded as the principal artery of war and the murderer of 20,000,000. These are in favor of an international high court to pass judgment on his case. They oppose banishment as tending to Napoleonize him into a hero to which he is not worthy. Others declare the kaiser and crown prince were marionettes in the hands of the militarists and kings of commerce, who are the ones responsible for the war. They contend that, if possible, these ringleaders also should be haled before an international court so that something like justice might be achieved.

The opinion is unanimous that the Allies have hard jobs in fixing Germany so that no one man or clique can make war again and at the same time arresting a famine so far as circumstances permit by holding out a helping hand to a thoroughly beaten foe.

Jan Van Hamel, professor of jurisprudence in Amsterdam, now in Paris, was interviewed concerning the possible disposition of Wilhelm. He said he believed the Dutch government will refuse to allow the former kaiser the asylum if an international court of justice should require his appearance.

## BEACH MAN DIES FROM BEE STING

LONG BEACH, Nov. 14.—Caryl Neibel, formerly assistant secretary of the Long Beach Chamber of Commerce, died early yesterday afternoon from the sting of a bee. The insect's poison, always painful but usually harmless, acted with the speed of a viper's venom. Neibel was dead within thirty minutes of the time he had brushed the thing off his neck.

Neibel was at work on a ranch about three miles north of Huntington Beach when the bee struck him on the back of the neck and left its sting. He tried to work but soon remarked that he felt sick and was going to sit down. Within a few minutes Mr. Neibel and his wife came from the house near by and saw Neibel lying on the ground unconscious. They could not revive him. Two physicians were summoned. They applied heroic measures, but Neibel continued to sink and died within half an hour.

Neibel was 37 years of age and well known in Long Beach. He was secretary for Frank P. Flint during the latter's term as United States senator.

## REVOLT IN GERMANY MAY BE CAMOUFLAGED

BY J. W. T. MASON (United Press Staff Expert) NEW YORK, Nov. 14.—There is deep danger that Hohenzollern will try to mount the throne of Germany again if the delegates to the peace conference succeed in disturbing the harmony of the Allies or sow discord between America and the world's other democracies.

The German revolution shows evidence of having been too carefully organized in too short a time for it to be accepted at its own value. Hohenzollern's self-imposed exile has taken him into the nearest neutral country, from which he could make a quick return if conditions

warranted a duplication of Napoleon's escape from Elba. A true revolution should show far more exuberance and a far greater spirit of rejoicing over the winning of freedom than has yet been demonstrated in Germany.

When a nation has been crushed into mediocrity as Germany has been, a certain amount of inefficiency is inevitable before the true road to liberty is found. Germany has not yet passed through the transition period. There is no indication that new machinery of the government is being used, although new names are replacing the old ministers.

## HOLD 'DEUTSCHLAND' RESPONSIBLE FOR SAN DIEGO LOSS

BY CARL D. GROAT (United Press Staff Correspondent) WASHINGTON, Nov. 14.—The German submarine Deutschland is charged with responsibility for sinking the United States cruiser San Diego a short distance out of New York a few months ago.

The information is the best available that the Navy Department has as to the cause, it was stated by an official today.

The Deutschland, originally a cargo submarine cruiser, was converted to lay mines and also was fitted with torpedo tubes. She was known to have operated for a while off the Azores, it was stated.

As far as the navy has been able to ascertain, she was the vessel that crept into American waters and discharged mines which later wrecked the old cruiser San Diego. It was indicated that the navy's proof so far is not positive, but its evidence is regarded as rather conclusive.

The Deutschland, under Captain Koening, first came into Baltimore harbor with a cargo of dyestuffs. After about four weeks she went out with a cargo of nickel, and when she made her second trip, she docked at New London, Conn. On her outward voyage there was a collision in which a tug was sunk.

What happened to her sister ship, the Bremen, is still a mystery as far as the world is concerned. The British admiralty probably knows and there may be some American naval officials in on the secret. One thing is certain—she was expected at New London and never appeared. Stories current in naval quarters are that she was captured and interned by the British. Germany is understood to have built seven or eight of these vessels of the Deutschland type, which she later converted into submarine cruisers.

## BRITISH ASK PROBE OF U. S. MEAT TRUST

LONDON, Oct. 31. (By mail.)—Investigation of the alleged Chicago beef trust is being demanded by members of Parliament and a section of the British press.

Bitter criticism of American meat packers is expressed in such headlines as "At the mercy of the meat trust!" "Inquiry needed into workings of U. S. concern."

Answering the statement of H. H. Cautley, member of Parliament that the food control departments of Great Britain and America are being run together to a great extent and that American influence in the direction of their policy is very strong and is exercised in the interest of the alleged American meat trust, J. R. Clynes, British food controller, declared the charge is a "gross misrepresentation."

Cautley, however, is not without support. Sir John Taverner, who for eleven years was agent at Victoria, Australia, advocates a probe.

"Mutton in Australia was commandeered by the government, and cheerfully relinquished by the producers at twelve cents a pound," said Taverner. "It costs two cents a pound to deliver it here and should have sold at a reasonable profit at 19 to 20 cents. Instead it was sold at 26 to 40 cents a pound. Australians wrote me indignantly about it when they heard of these high prices for meat they had relinquished at twelve cents a pound."

"When complaint was made here we were told that the government had to average up their prices. In other words, they used this Australian meat to make up their losses on the excessive prices they paid the American meat trust."

"It has always seemed that the greatest injustice that the Australian meat which is cheap, should be handed over to our allies while to the British people should be left the dear meat of the American trust. That is why I think there should be an impartial inquiry."

## COAST LUMBER TO REBUILD EUROPE

SAN FRANCISCO, Nov. 14.—Great Britain must have 500,000 new houses and most of the lumber for them will come from the Pacific coast states. In addition, hundreds of thousands of new homes must be built in France and Belgium.

This was the statement today of A. L. Williams of C. Leary & Company, the largest lumber dealers in the British Isles, who has come to the west coast to survey the timber situation. He said construction work in Europe had halted during the war and arrange-

## QUESTIONNAIRES TO BE FILLED OUT, IS INSTRUCTION HERE

Call Issued For Riggers For  
Navy Department Is  
Received Here

So far as the local board is concerned, questionnaires must be filled out and returned. Despite press dispatches to the contrary, there is no authority yet received by which the obligation to fill out the questionnaire is set aside. Some such order may be on the way, but it has not been received. The situation as it is here is set forth in the following statement by Clyde Bishop, government appeal agent, at 11:30 a. m. today:

"Notice to Registrants—The opinion appears to have become prevalent that registrants to whom questionnaires have been mailed need not make the same out or return them to the local board.

"This is an erroneous impression. The local board has never received any competent orders to discontinue the making out of questionnaires, and until such orders are received, it will be the duty of the local board to proceed with the work, and any registrant who fails to make out and return his questionnaire within the time specified will be delinquent.

"The board may receive these orders at any time and when they are received due and proper notice to registrants will be given. Therefore, be advised to fill out and return your questionnaires until you are officially notified to do so."

The local draft board has received a call for volunteers as riggers, bridge or structural, for the navy department. The names of volunteers will be received up to November 23 by the local board, and the men wanted will be ordered to go about November 29. The call was issued by Adj. Gen. Borree on November 12.

Word has been received that Logan Jackson of Orange, S. P. Harris of Villa Park, Edward Covington and Frank Chapman of Santa Ana, who were entrained for officers' training school in the East, have been ordered to return home. The peace news closed the school.

A drizzling rain starting yesterday forenoon about 9 o'clock developed into a regular rain storm late in the afternoon and from 4 to 7 o'clock there were hard showers. The rainfall for the storm as recorded in the table above shows that the storm was of considerable proportions in the point of precipitating moisture. The rain seems to have been heavier south of Los Angeles than in the section north of that city, and where Santa Ana received three-quarters of an inch, according to the Government gauge kept by Frank Greenleaf, other sections of Southern California the average was less than one-fifth of an inch.

The rain is all to the good. There is no crop that it could do any great damage to for everything has been harvested. Alfalfa hay may have suffered some damage, but clearing weather this morning made this possibility very light.

Farming lands that have been cleared of beets, beans and other crops, are in fine condition to receive moisture. Some of the fields already were under the plow and being prepared for the rains.

From a rain standpoint the season opens much brighter than it did last year. Last season there was no fall until November and during that month a total of .38 of an inch fell, being the only rains until after the first of January.

The first rain this season was in August and the total for the season to date is 1.82 inches, according to the records of Hill and Son. Frank Greenleaf became the official observer for this city on the first of October and does not have the record for the previous rainfalls during this season.

On the mountain ranges the rain is more than welcome. Feed is growing scarce and feeding already has been resorted to by some cattle men. It is probable the grass will spring up now and with rains that may reasonably be expected from this time on should be kept growing.

## FLOUR SUBSTITUTE RULE ABOLISHED

County Food Administrator C. S. Crookshank has been officially notified that the 80-20 wheat flour rule has been abolished by the food administration, on account of the large quantities of wheat stored in Australia and other foreign countries which can now be shipped to this and other countries where needed. This means that grocers will sell wheat flour without requiring the purchase of substitutes, and that all-wheat bread may now be made by bakers.

The rule that not more than two ounces of bread may be served to a customer at one meal in restaurants and cafes still is in force and must be rigidly observed. The rule that only one-half ounce of butter, one-half ounce of sugar, and one-half ounce of American cheese may be served a customer at one meal, and then only upon specific order of the customer, also remains in force. Inasmuch as every purchaser of hotcakes or waffles wants butter to go with them, Mr. Crookshank holds that the butter may be applied in the kitchen, and thus served as a part of the order, without specific request by the customer.

## PLENTY OF QUAIL UP SANTA BARBARA WAY

SANTA BARBARA, Nov. 14.—County Game Warden Henry Abels reports quail abundant in all sections of the county. In the interior valleys there are said to be thousands of opportunities to bag the limit, and hunters from over the county are preparing to be on the scene bright and early Friday morning, when the season opens. Not in many years, it is said, have the birds been in such numbers. Unusually good feeding on the mountains and over the brush-covered lands are what has given larger numbers of birds to the county this year. From Ventura and San Luis Obispo counties conditions are said to be equally as good.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action. If you have a "dark brown mouth"—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime. Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.

## GIVES HIGH PRAISE TO SPIRIT OF CITY

Congratulations on the good work done here in collecting records for musical instruments in soldier camps have been extended to Mrs. A. J. Padgham of Santa Ana by V. Burnett of New York, chairman of the National Phonograph Records Recruiting Corps. The letter reads as follows:

My Dear Mrs. Padgham: We wish to congratulate you on the fine showing you have made. Your results so far were perfectly fine.

We think it would be a good plan for you to send the cylinder records and piano rolls to the camps near your town.

The spirit your town is displaying is certainly splendid, and if you have any money left, you may be sure that we would welcome it, because our expenses have been so high, that we have completely run out of funds. With the end of the war now in sight, our movement will continue at the request of high military officials. During the period of demobilization, our boys will need music just as much as now, because it will take some time to get them back to the United States and they will be very homesick. Music will do a great deal toward keeping them in good cheer. We hope our committees will carry on.

## THE LONGEST PEACE CONFERENCE

Anybody in the peace conference will have a job on his hands. It will probably be the longest session of the sort in history.

It is a considerable task to settle the affairs of two nations that have been fighting a comparatively small war over a comparatively simple matter, as the Spanish-American and Russo-Japanese conferences attest. What may we expect, then, when it comes to winding up the greatest and most complex of all wars?

Almost the whole map of Europe has to be re-arranged. The affairs of nearly a score of belligerents have to be adjusted and harmonized. The status of several new nations has to be determined. International law has to be largely rewritten. Some sort of world-federation has to be worked out. The question of military armament must be decided. There will be baffling economic problems to deal with. We might almost say that the affairs of the whole world will have to be put in order.

It will be the most important council of men that ever assembled. It will have the most work to do, and the hardest work. It will probably do well if it completes a rough sketch of a settlement in less than a year.

## MILLIONS OF VETERANS

Very likely the inevitable movement to organize our fighting men into some sort of fraternal order is already under way. If not, it will surely not be long delayed. We may expect to have soon a military society which, in numbers and potential influence, will dwarf the Grand Army of the Republic or the Confederate Veterans, or both of them together.

It will take in, of course, all those who have gone to fight our battles overseas. Very likely it will include, in order to avoid invidious distinctions, all who have worn their country's uniform in home camp or cantonment or any branch of special service. If anywhere near all the eligibles join—and we may trust the American fraternal spirit for that—we shall have about 4,000,000 members of the new lodge in our civilian midst ere long.

Their buttons and pins and ribbons will be a familiar sight on the street and wherever men congregate. Their regalia will gladden lodge rooms over all this broad land.

Soon, too, we may expect to have Wives of Veterans and Sisters of Veterans and Mothers of Veterans. And in the fullness of time, if we run true to form, we shall be blest with Sons and Daughters of Veterans, to be succeeded in turn by Grand-sons and Grand-daughters of Veterans, and perhaps in the dimmer future by indiscriminate generations characterizing themselves merely as Descendants of Veterans, for aught we know, unto the end of time. If this is the last

big war, as we so fervently hope, it is a reasonable expectation.  
No patriot will grudge them their public honors, nor their insignia, nor their freedom of select and mystic shrines closed to its common folks. Nor do we fear the political power they might conceivably wield, for we know that these champions of Americanism in foreign lands will come home better Americans than ever.

We won't hear so much talk of "schwein" and "schweinhund" in Germany any more. Brute force has taught the Huns a wholesome respect for their foes. By the same token, the Turk has stopped calling the rest of the world "dogs."

Mittel-Europa is having an awful pain in the pit of its stomach, due to inability to digest so much green fruit of conquest.

If someone will kindly sign an armistice with the flu a lot more anxiety would be unmasked.

## Tribute to "Ma and Dad"

(Sacramento Bee)

They pass the medals around. The brave are rewarded with that which they cherish until death. And their children will keep the token as one of the sacred symbols.

Down through the generations when this time shall be a dim twilight vista in tradition and story, shall the descendants of each gallant boy make a sanctuary of the decoration he won for gallantry in battle.

They pass the medals around. Forth from the ranks stand the recipients. Admired and envied of their equally brave but less lucky comrades, they stand forth to receive their accolade as true knights of Liberty, daring the flameburst of shrapnel, the withering poison of gas, and the malignant rain of the rifles and machine guns—daring premature oblivion that the world shall be free.

They pass the medals around. There is no cheek-kissing as do the French. It is simply a hand-grip from the commanding officer, and a swift, keen glance direct in the eyes from man to man, American to American. And it is all over.

They pass the medals around. But they pin none on Ma and Dad back there in the old homestead. Ma has died a thousand deaths since Sonny light-heartedly left for the great adventure.

Dad has dreamed himself down into the Valley of the Shadow a thousand nights since he laid his great, gnarled hands on Sonny's shoulders and said: "Good-bye, son. No matter what happens, play the man. Our prayers will be with you every hour."

They pass the medals around. But not to Ma and Dad. If Sonny, having played the man, comes home to them, head up, back from the great adventure—that shall be sufficient medal for Ma and Dad.

## GROANS AND GRINS

"What did you learn at business college?" asked the boss of the fair young applicant for a position as stenographer.

"I learned many things," she answered. "One is that good spelling is essential to a stenographer."

"Good," said the boss with a chuckle. "And now let us hear you spell 'essential'."

For just a fraction the fair one hesitated. "There are three ways of spelling it," she returned; "which one do you prefer?"

She got the job.

### FATS OFF TO PRESIDENT WILSON

Editor Register: In this hour of world rejoicing, when there are tears in every eye and a thrill in every soul for the ending of this awful nightmare of war, the Great Tragedy of the centuries, as a Spanish author called it, our thought goes to that great Citizen who is in the White House, that providential man whom I will call a Man of God, who is going to be counted among the greatest men in history. He, as Lincoln, another Man of God, came at the right hour to take his share in the great job of freeing the world from the grip of a traditional autocracy which was out of time in these days of liberty, justice and democracy.

Prussian autocracy is at an end; it has gone down in a sea of blood. The Hohenzollern, and the military cast of Germany, instead of their dream of a world dominion, will have only the awful remorse for the war they started and the vision of bloody fields of battle, of destruction and desolation, of sunken ships full of innocent women and children, and this vision will follow them as long as they live. And as long as they live they will hate Woodrow Wilson, the representative of the democracy of America, because he, with his pen, wrote their fate.

It is not only the power of guns which has destroyed the German autocracy. This, without the power of principles back of them, amounts to nothing. When the complete history of this tragedy is written, then it has to be said that Woodrow Wilson, President of the United States of America, precipitated the revolution that overthrew the Prussian autocracy. He put a sign of vacancy on the thrones of Germany with the power of his principles and ideals, pointed in his answers to the German proposals of peace and in his many marvelous addresses.

And so, when President Wilson goes to his place of honor among the greatest men of these days, the whole story is going to be said in just four words, and engraved on his monument: "DE-STROYED AUTOCRACY IN EUROPE."

Long live President Woodrow Wilson, the providential man in America! VINCENTE MENDOZA.  
Santa Ana, Cal., Nov. 11, 1918.

### PERFECT WOMANHOOD

—Perfect womanhood depends on perfect health. Beauty and a good disposition both vanish before pain and suffering. A great menace to a woman's happiness in life is the suffering that comes from some functional derangement which soon develops into headache, backache, nervousness and "the blues." For such suffering, women find help in that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, which for three generations has been restoring health to women of America.—Ad vertisement.

### GASOLINE STATIONS NOT LIMITED NOW TO 12-HOUR DAY

SAN FRANCISCO, Nov. 14.—On account of the cancellation of calls for drafted men, the order requiring garages and service stations to stop the sale of gasoline after 6 p. m. has been rescinded, according to an announcement by Prof. David M. Folsom, Federal fuel oil Administrator for the Pacific coast. The order was issued six weeks ago to release men from those establishments for the army and other war work.

### WOMAN IS APPOINTED FOOD ADMINISTRATOR, SAN DIEGO CO.

SAN DIEGO, Nov. 14.—Miss Alice Wangerheim, who was appointed food administrator to succeed Duncan MacKinnon, who became president of the United States National Bank, is the only woman food administrator in the country and the only dollar-a-year woman executive in the country. Miss Wangerheim, who is a Vassar graduate, has been MacKinnon's deputy since July and is acquainted with the details of the work in this county and so stepped into the work of food chief yesterday.

## SALVATION ARMY WILL STAY WITH AMERICANS UNTIL ALL COME HOME

"A pioneer unit rushed ahead under orders to conduct its own campaign and choose its own front, but to establish contact with the enemy," says a delayed November 6th dispatch from Webb Miller, with the American armies in France, just reaching the Register today.

Three Salvation Army lassies, Margaret Sheldon of Chicago, Anna Swenson of St. Paul, and Louise Young of Poughkeepsie—trying to keep pace with the advance, reached a battered town at 4 in the morning. A tent already had been erected by the supply train and the girls were ordered to pile into it and get some sleep. Instead of resting, they started to work. Before 9 o'clock they had made 2000 doughnuts and were serving them with chocolate along the line. When the shells whistled overhead the doughboys would duck under nearly shellholes but the girls never moved. They made doughnuts all morning under constant bombardment.

"Nearly other Salvation Army women were acting as nurses in first-aid hospitals."

"The Salvation Army is planning to keep in touch with the Americans till the last man returns home."

### 23 BOXES OF DYNAMITE, ONE BLACK POWDER, PLOWED UP

SAN BERNARDINO, Nov. 14.—C. M. Totten missed death by a fraction of an inch yesterday when his plow shear struck the edge of a box of dynamite in a cache of 600 pounds of high explosives unearthed on the ranch of C. M. Taylor on South Arrowhead avenue.

Totten's plow tore the cover off of one box of 35 per cent nitroglycerin and he did not stop to investigate further. Instead he got in touch with officers and they uncovered twenty-three boxes of dynamite and one box of black powder, which evidently had been buried for a year or two.

The explosive was buried about 1000 yards from the Cooley ranch powder house and at first it was believed that it was a part of a quantity stolen years ago. This was disproved. The boxes were addressed to F. F. Blake at Redlands, but officers tonight had not established his connection with them. Totten figures that there was enough of the dynamite to blow him and his team clear to France.

An Ordinance Prohibiting the Assembling and Congregating of Persons in Public Places, and the Public Use of Public Instruction, without the Permission of the County Health Officer, and Fixing the Penalty for Violation Thereof, and Declaring the Same to be an Emergency Measure, and Providing for Its Taking Effect Immediately.

The Board of Supervisors of the County of Orange do ordain as follows:  
**SECTION 1.** It shall be unlawful for persons to assemble or congregate together in any public school, church, theater, pool or billiard room, dance hall, lodge room, club room or other place of public instruction, worship, amusement or entertainment or at gatherings of a public nature in private homes outside of incorporated municipalities without having first secured a permit so to do from the County Health Officer.

**SECTION 2.** Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine not exceeding fifty dollars (\$50.00) or by imprisonment in the county jail not exceeding ten (10) days, or by both such fine and imprisonment.

**SECTION 3.** This ordinance is hereby declared to be an emergency measure necessary for the immediate preservation of the public health of the people of Orange County by reason of the existence of an epidemic of Spanish influenza now prevalent throughout the County of Orange.

**SECTION 4.** This ordinance shall, by reason of the foregoing facts, constituting its urgency, take effect and be in force immediately after its passage, and continue in effect until the further order of the Board of Supervisors; provided, however, that notwithstanding this ordinance, shall take effect immediately as herein provided, it shall be published with the names of the members of the Board of Supervisors and of the County of Orange, and shall be in force for at least one week in the Santa Ana Daily Evening Register, a newspaper of general circulation, published in the County of Orange.

**Why you should give twice as much as you ever gave before!**

The need is for a sum 70% greater than any gift ever asked for since the war began. The Government has fixed this sum at \$170,500,000. By giving to these seven organizations all at once, the cost and effort of six additional campaigns is saved. Unless Americans do give twice as much as ever before, our soldiers and sailors may not enjoy during 1919 their

- 3600 Recreation Buildings
- 1000 Miles of Movie Film
- 100 Leading Stage Stars
- 2000 Athletic Directors
- 2500 Libraries supplying 5,000,000 books
- 85 Hostess Houses
- 15,000 Big-brother "secretaries"
- Millions of dollars of home comforts

When you give double, you make sure that every fighter has the cheer and comforts of these seven organizations every step of the way from home to the front and back again. You provide him with a church, a theatre, a cheerful home, a store, a school, a club and an athletic field—and a knowledge that the folks back home are with him, heart and soul!

You have loaned your money to supply their physical needs. Now give to maintain the Morale that won the war.

**"A** MERICA in this war has done what no other nation ever did. She has carried the presence, the atmosphere of home into the camps across the seas, that everywhere the soldier may realize there are fatherly hands to help him, motherly hands to console him, friendly hands to entertain him.

"All these seven organizations now stand upon one platform—that of providing recreation, entertainment and home comfort for our troops. From that common platform, all, together with one voice, will make a single appeal to the American people.

"These seven organizations have agreed by direction of the Government upon definite budgets and all are working under a general national committee upon which all are represented for a united war work campaign to raise the sum of \$170,500,000.

"They have just one aim—to serve that fighting boy of yours—to be with him from the time he leaves home till he gets back—to back him up and to buck him up—to do for him the very things that you would do if you were there.

"It's a big job, that. It takes all that all of us can do, working together shoulder to shoulder, each organization looking after the part of the job that it knows best."

If it was worth 20 billion dollars to this country to lick the Germans, surely it is worth one per cent of that amount to make the job a little lighter for the men who did the fighting. That would be 200 millions—and the budget calls for 170 millions—less than 15 cents a day per boy.

It is Santa Ana's part to put this drive over the top with 50% to spare in the two days that are left to us. Santa Ana has always oversubscribed her allotment and now in view of the victory our boys have won we should not be satisfied with less than a 50% oversubscription. Our fighters have certainly earned all that the United War Welfare Workers can bring them, so let your money talk—to the boys. Put this drive over strong.

In order to get \$10,000 insurance for the death of Donald Leo Trapp, El Toro boy who died in France of wounds received in action with the Marines, guardianship proceedings were started in the superior court yesterday. The young hero's policy was made out in favor of his sister, Miss Mary E. Trapp, a minor. The money to be paid under the policy is to be paid \$7.50 per month. The Bureau of War Risk at Washington stated that the payments would be made as soon as a guardian is appointed. Robert Trapp, father of Donald, asks that letters be issued to William H. The owners said he had authority to take orders only, not to deliver the truck he did deliver. The owners allege that Duncan will have to give up the truck. Suit is for \$1950, value of the truck, and \$500 damages because Duncan won't give possession. Clyde Bishop and J. C. Burke are attorneys for the plaintiff. Kirby has not been located for arrest.

CITY OPENS UP  
TOMORROW AT  
NOON HOUR****Board of Health Meets In  
Special Session For  
Action**

The lid is off—or will be off tomorrow at 12 m. and Santa Ana may resume her normal business conditions. The influenza in this city is officially dead, for the board of health at a special meeting at 1 o'clock this afternoon took action raising the ban that has been on for the past four weeks, lacking one day. The closing has been effective against public gatherings, churches, poolhalls and theaters. There are sixty cases under quarantine today.

Deputy Health Officer Chandler made a report as to the epidemic situation in this city today and following this City Health Officer Clark recommended that the ban be lifted.

Dr. Barnes moved that it be raised Saturday at noon, because the ban was started at noon on Saturday, four weeks ago. The pastor of the Advent church asked if he would be at liberty to hold church at 10 o'clock Saturday morning. The hour of opening was then changed to Friday noon.

Dr. Clark said the situation was clearing rapidly and he could see no reason for continuing the closing order.

**Barn a Nuisance**

Dr. Clark stated that there had been a nuisance maintained in this city for the past three years that he had not been able to abate because he could not get action by the board of health. The horse and mule market at the corner of Main and Second streets is the establishment he complained against. "I have made several attempts to have the nuisance abated," said Clark. "We can't remove the barn but we can cause the stock to be removed and the corral cleaned up. The smell of the corral is the last whiff of Santa Ana that people get traveling through to San Diego and it does not leave a very favorable impression. I would ask the board for authorization to declare it a nuisance and close it."

The board empowered the city health officer to declare it a nuisance and to clean it up, the same to apply to other similar places in the city where the health of the city is menaced. It was indicated that there are other horse and mule markets in the city that will be accorded similar treatment.

**For Clean Up Campaigns.**

Endorsement of Chamber of Commerce clean up campaigns twice a year was given at the request of Secretary Metzgar. Metzgar stated that the Chamber of Commerce would undertake to make two clean-ups each year—sanitary clean-ups—and hoped to keep the city in apple pie order.

**Have Cold, Stay At Home.**

Now that the ban has been raised, the health board requests that everyone afflicted with a cold stay at home and refrain from mingling in crowds, and also refrain from the use of phones in public places.

**TERM OF FEDERAL  
AGENT CUT SHORT;  
HE'S GLAD OF IT**

Fred Rafferty is no longer a federal labor agent for Orange County. This morning he received a letter from San Francisco from the district superintendent, Employment Service, U. S. Department of Labor, notifying Rafferty that his term was up on Oct. 31, and that his work, planned as a war measure, was terminated. It is all right with Rafferty. He is glad, more than glad, for the work to end, but he is wondering how the federal office made the mistake of chopping a month off of his term of office. Rafferty's term was for six months ending Dec. 1. Most of his work has consisted of making out endless reports, and accuracy was essential. The department that was requiring complete accuracy from its agents seems to have slipped a cog of a month, but it's all right with Rafferty. He never asked for the job in the first place, and since it paid \$25 a month and was worth several times that if it was worth anything, he's happy over the slipping of the cog.

**ONLY SIXTY CASES OF  
INFLUENZA IN  
SANTA ANA**

Apparently the influenza epidemic in Santa Ana has about run its course. There are but sixty cases in the city today. Deputy Health Officer Chandler today quarantined four houses and six cases and released eighteen houses and forty-nine cases, leaving the number of cases in the city, so far as Chandler's record shows, only sixty.

There were no deaths in Santa Ana yesterday or today. At the county hospital two new cases were brought in, one last night from Orange, a white man, and one from Santa Ana, a Mexican.

Three Mexicans died at Garden Grove. There was one death at Delhi, a Mexican boy, and one at the county hospital, a Mrs. Aleman of Stanton. The county hospital still is in need of a graduate nurse for night work. There are between twenty-five and thirty cases of influenza at the institution.

Anaheim will raise the ban next Monday and Fullerton already has been thrown open again.

**An Anaheim Cure**

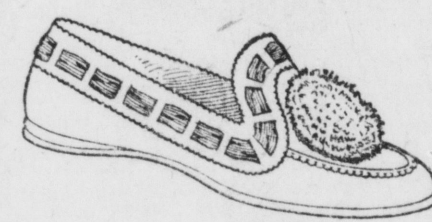

Anaheim Gazette: This paper always stands ready to acknowledge its fault should a misstatement occur in its columns through misinformation, and it is with the utmost pleasure we record that announcement in our last issue of the death of Emil Otto was an error. Mr. Otto is not dead, and what is more, he gives evidence just now of living to a green old age. He suffered an attack of influenza and was very low the fore part of last week, but the danger point was safely passed, and he is now rapidly recovering. But while Emil isn't dead, and never was dead, we had some ground for making the statement because he was buried. Intermment took place in his garden where he remained several hours immersed in mud with only his head exposed. When he came forth his fever was reduced and the flu germs vanquished. We apologize to Emil for the mistake, but congratulate him on his recovery.
